Discussion of Parks Ownership and Maintenance

Agenda Date: Town Board Meeting - August 18, 2020

Attachments:

- List of Parks
- POST Commission 2020 Parks Assessment
- Parks and Open Space Ownership and Maintenance map

Submitted by: Jennifer Simmons
Planning Director

Approved for Presentation:

Town Manager

Detail of Issue/Request:

The Board of Trustees has requested information on parks in Town and their ownership and maintenance. Attached to this IM, you'll find a list of the parks in Town, the POST Commission's assessment of the parks that was completed this spring, and a map of ownership and maintenance.

Online, you can find the ownership and maintenance map at <https://frederickco.maps.arcgis.com/apps/webappviewer/index.html?id=fa271218a1534bd480fdf34ef3c63a8f>.

The following definitions of park types are found in the existing POST Master Plan.

- Pocket Parks range in size from ¼ to 3 acres and are typically found in high density areas. They are intended to be a walk-to facility that provides recreation for the residents in their immediate vicinity. They typically include play equipment, a picnic shelter and tables, and a small turf area for informal recreation. Because they are less efficient to maintain than a larger park, Pocket Parks can create a substantial drain on maintenance resources if managed by the Town.
- Neighborhood Parks are typically 3 to 20 acres in size and are also intended to be walk-to facilities, usually within a ½ to ¼ mile of the homes they serve. They typically have a playground, an open turf/play area large enough for informal field sports and practices, a

Built on What Matters.

basketball and/or tennis court, picnic facilities, and sometimes a restroom and/or off-street parking. Neighborhood Parks are often accessed by a network of trails. In Frederick, some Neighborhood Parks have less than typical acreage as they are surrounded by open areas that add to the open feel of the park (e.g., Eagle Valley Park). Regional and community Parks with play facilities and picnic areas often serve the surrounding neighborhood as a Neighborhood Park. Therefore, a portion of both Centennial Park and the Frederick Recreation Area provide a Neighborhood Park function.

- Community Parks are typically 20 to 40 acres in size. They are typically drive-to facilities that serve multiple neighborhoods. They are characteristically located along major municipal transportation routes and have on-site parking (50 spaces or more). Where Neighborhood Parks may have one or two recreation facilities, Community Parks usually have clusters of recreation facilities such as a four-plex of baseball/softball fields, several soccer fields, 6 to 8 tennis and/or basketball courts, etc. These facilities often have night-time illumination. Community Parks often contain natural areas with trails and pavilions for group picnics and may include special facilities such as a recreation center, skate park, swimming pool, or a splash ground. When Community Parks have the basic services/features found in a Neighborhood Park, they also serve as Neighborhood Parks for nearby residents. Small portions of these Community Parks can be counted in the level-of-service estimation for Neighborhood Parks.
- Regional Parks serve an even greater population, typically the entire community and sometimes, adjacent communities. They are often associated with large natural areas (i.e. rivers, mountains, reservoirs) and may have special features to take advantage of their resources (such as trails and wildlife viewing opportunities). They can occasionally be created for special recreation uses (such as fairgrounds) and larger sports venues (e.g. stadiums).

Public Works Director van Dyne and I will be available to address questions you have.

Neighborhood	Trees			Shrubs			Site		
	Number Observed	Variety of Trees on Site	Overall Tree Quality	Number Observed	Variety of Shrubs on Site	Overall Shrub Quality	Picnic Shade/Shelter	Number of Benches	Number of Bike Parking Spaces
FRA	98	12 estimated	Most good, some others with damage	114	more than 10	Still dormant but ok	2	15	3
Crist	42	7	Good with some dead branches	17	6	Still dormant but ok	1	10	6
Savannah	46	39 Deciduous, 7 eg	2 dead deciduous trees, the rest were marginal to good, they need some love	0	0	0	1	4	3
Summit View	25	deciduous	overall, good. They could use some love, too.	5	Deciduous	Good	1	2	0
Rinn Valley Ranch	36	3+	4	75	4+	4	1	1	6
Fox Run (Upper & Lower)	32	10-Sep	4				1	10	
Carriage Hills 2	27	3	3	43	2	3	1	3	6
No Name West	27	4	3	0	0	0	1	4	0

*NNCW - there is an accessible ramp but it goes into the gravel, which doesn't seem like it would work for a wheelchair. It looks like there are frames for 2 shade structures; c

* CH - there are no dog waste stations. Is there a plan to put one here?

Neighborhood	Trees			Shrubs			Sit		
	Number Observed	Variety of Trees on Site	Overall Tree Quality	Number Observed	Variety of Shrubs on Site	Overall Shrub Quality	Picnic Shade/Shelter	Number of Benches	Number of Bike Parking Spaces
Countryside	12	pin/ash/maple	5	34	yes	5	0	0	0
Johnson Farm	40	5	5	ornamental grasses	somewhat - replacement of some	2-3 poor in some areas - several need replacement	1	5	0
* Countryside -picnic table currently moved off it's location, need to be bolted and painted									
* JF park needs some TLC - new mulch throughout needs edging placed - rocks are all over s/w, some cracked s/w									
Eagle Valley	18	3	good	0	0	0	1	3	0
No Name Eagle									
No Name West	22	3	good	0	0	0	1	4	0
*is it a concious choice to not have trash cans near the pet waste bag receptacles? I found that each park had the bag stations but trash was often on the other side of the park									
* No Name park also included a 1/2 basketball court with one hoop. I would suggest line paintings and a general clean up at some point.									
* When are the shade awnings installed in the spring - not sure of the condition of the awnings.									
* noticeable that there are not any bike racks at these parks. In particular, the EV park would benefit from this as it is across from Legacy Elementary and has a connected trail									
Coalridge*	22	10 eg/12 dec	eg are good 3	0	0	0	1	2	0
Maplewood	13	7 larger trees, doesn't seem to be much variety	ok, some of the smaller trees seem to be struggling	0	0	0	0	0	0
Firefighters'	15	4 eg	4	0	0	0	3	1 at playbya, 4 narrow metal benches around basketball court	0

hard to assess deciduous trees as they hadn't budded out.
